

WHAT WE CAN SEE

Owned by the Dukes of Arcos, the Ponce de León family used the castle as a residence, and there is evidence that the Catholic Monarchs visited the city and stayed there. **Luna Castle** is a symbol for the citizens of Rota, Cádiz, as evidenced by its appearance on the town's coat of arms. It has housed a hospital and a school, and is currently the headquarters of Rota City Hall.

Bodegas el Gato is a family business founded in 1957. It is located in the old town of Rota, a coastal town on the Cádiz coast. Juan Martínez Martín-Niño "El Gato," along with his family, carry out this beautiful work, taking the utmost care in the production process from the vineyard to bottling.

At our facilities, we produce and bottle Finos, Moscatel, Cream, Pedro Ximénez, Oloroso, and Tintilla de Rota wines, a wine originating in this town. Our wines are distinguished in the market by the brands El Mayeto, Gran Mayeto, J. Martínez and Tehigo.

WWW.YOUTHSUPERCUP.COM

We want to give visibility to your sons and daughters, in one of the most prominent audiovisual content in the sports world.

The place where the protagonists speak, share their impressions, analyze the game, and share their experiences after the matches.

Thanks.

SOCCER FIELDS

Our soccer tournaments bring together numerous players and families, and we offer them the opportunity to enjoy quality soccer fields with all the necessary amenities to make the tournament a success. We strive to clearly display tournament instructions in a visible location, such as: We reserve the right to refuse admission or expulsion of anyone who behaves inappropriately. Some basic rules include: No littering, no fighting, no cursing, no damaging the facilities, and no alcohol or drug use within the sports facilities.

When choosing soccer fields, we look for clean, turf-lined areas.

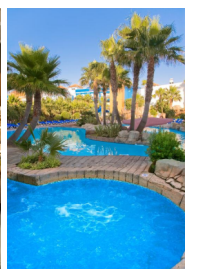

On-field health services are available, with all the necessary resources to handle any type of accident or injury, both for players and fans.

SPORTS FACILITIES IN THE SURROUNDING AREA

HOTELS

Located north of the Bay of Cádiz, its municipal area comprises flat, coastal terrain, notable for its extensive beaches and dune formations, as well as the fishing corrals, enclosures designed for an ancient form of fishing characteristic of the area.

The town, although it may have Phoenician origins, acquired the status of a village during the Muslim period and the Christian conquest. It features notable features such as Luna Castle, the Church of Nuestra Señora de la O, and the Chapel of San Juan Bautista.
